COMMONWEALTH of VIRGINIA
Department for the Aging
Jay W. DeBoer, J.D., Commissioner

MEMORANDUM

TO: Executive Directors Area Agencies on Aging

FROM: Faye D. Cates, MSSW, Human Services Program Coordinator

DATE: March 7, 2006

SUBJECT: HUD TO PROVIDE SURPLUS PROPERTIES TO HOMELESS SERVICE PROVIDERS

Homelessness remains a serious issue in all of Virginia – cities, suburbs and rural communities. Looking at FY02 figures demonstrates how chronic the problem is for the Commonwealth:

- 52,897 persons requested shelter in Virginia
- 30,173 persons were sheltered
- 22,724 or 43% of requests, were denied due to lack of shelter spaces
- 585 were family members
- 32% or 9,655 family members, were children
- 36% were single men and women
- 3% were unaccompanied youth

(Source: Virginia Department of Housing and Community Development)

Those of you who are partnering with local housing interests who focus on homelessness should be aware that a surplus of government properties reviewed by the Department of Housing and Urban Development (HUD) is being made available to service providers to house homeless citizens. Suitable and/or available properties will be obtainable exclusively for homeless use for a period of 60 days from the date of notice. More information can be found in the *Federal Registry*, February 10, 2006, page 7318. Interested parties can contact Kathy Ezzell at (202) 708-1234 or may send written request to:

MEMORANDUM

TO: Executive Directors
Area Agencies on Aging

FROM: Ellen M. Nau, Human Services Program Coordinator

DATE: March 7, 2006

SUBJECT: Baby Boomer Information - White House Conference on Aging

Delegate materials pertaining to three important issues for the baby boomer generation as well as current older adults are now available on the White House Conference on Aging (WHCOA) website: <http://www.whcoa.gov/press/speakers/speakers.asp>

Prepared by the Technology Administration of the U.S. Department of Commerce the 53 page document, ***Technology and Innovation in an Emerging Senior/Boomer Marketplace***, is available in pdf. and can be downloaded to computers. Recognizing that technology is not just for the infirm or disabled elder, the paper emphasizes that technology should aid seniors' independence, productivity and quality of life. In this paper, the Department of Commerce offers an explanation of aging technology and how it can aid baby boomers in six areas:

- Living environment
- Mobility
- Healthcare
- Cognition
- Employment
- Connecting to community, caregivers and the healthcare system

As more Americans assume the role of family caregiver to loved ones, The Health Plan of New York and the National Association for Caregivers offer a 43 pdf. of their booklet ***Care for the Family Caregiver A Place to Start***. Many baby boomers will be taking care of elderly parents and facing their own aging issues. Offering tips to caregivers to save stress and time due to caregiving tasks, the document also urges that caregivers

take care of themselves. A caregiver resource guide can be found at the end of the publication.

Referenced on the WHCOA website, and available for downloading at www.hsph.harvard.edu is a third paper presented to WHCOA attendees, **Reinventing Aging: Baby Boomers and Civic Engagement**. The report questions the contribution of baby boomers to civic life and community organizations in their later years. It notes the significant contribution of their parents' generation, "The Greatest Generation", and wonders if boomers will exercise the same dedication to leaving a social legacy of significant importance.
